

PURIS®

PURIS® Pea FlowBite Protein

PURIS® FlowBite Protein has all the functionality expected from PURIS® Pea Protein, but with the benefits of improved flowability in extrusion. A uniform particle structure reduces dustiness for a better user experience and less waste. FlowBite Protein has less electrostatic charge resulting in improved efficiency, less downtime, greater throughput, and more consistent production runs. PURIS® FlowBite the perfect ingredient for extrusion customers. Product available as:

	GROWN IN THE USA		MADE IN THE USA		CERTIFIED USDA ORGANIC	
	DAIRY-FREE		GLUTEN-FREE		KOSHER	NON-GMO
	MADE WITHOUT SOY		GLYPHOSATE RESIDUE FREE		PLANT BASED	

PURIS® Pea

FlowBite Protein

FEATURES

Excellent flowability, uniform particle structure, increased capillary action, and a clean neutral taste. 80% protein by weight.

BENEFITS

No clumping and clogging reduces breakdowns and increases throughput. Less static, dust, and waste improves efficiency and user experience. Neutral taste allows for greater seasoning and flavor pickup, post-extrusion.

APPLICATIONS

PURIS® Pea FlowBite Protein is ideal for dry extrusion and high moisture extrusion applications where mimicking animal proteins is the goal including shreds, tenders, nuggets, breasts, and more.
